

MODULE 1: CONFIGURE YOUR SITE – PREREQUISITES

CONFIDENTIAL

CONFIGURE
YOUR SITE

SAAS DEVELOPMENT ENVIRONMENT - PC USERS

Requires Visual Studio Plug-in or Standalone
CrownPeak Desktop Connection (CDC)

- <http://desktop.crownpeak.com/Standalone.aspx>
- <http://desktop.crownpeak.com/VS-plugin.aspx>

Configure Your System for Template Development

- https://connect.crownpeak.com/developers_and_partners/getting_started/documents/developers/csharpsystemconfigv1pdf

Developers on MAC OS should use the built-in source code editor, which includes some auto-complete features

An Eclipse Desktop Connection Plug-in is also available

- <http://desktop.crownpeak.com/eclipse.aspx>

Eclipse Plug-in does not include IntelliSense Integration
