

HEADLESS 2.0

Create and deliver headless experiences without losing marketer autonomy – we help brands create, curate, and present content in all forms.

DEVELOPER

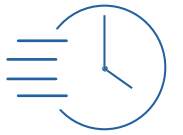

MARKETER

FLEXIBLE

Deliver content headlessly to any channel or device. DXM is front-end agnostic, so you can use your favorite languages and tools.

Launch new digital experiences in a fraction of the time it would take with a traditional CMS. Rapidly create digital experiences for any emerging channel or device.

BARRIER-FREE

Use our SDKs for JavaScript frameworks to automatically generate components, templates, and models within DXM that the marketing team can use- within the guidelines you've set.

Use drag and drop, inline editing, and real time preview to construct and assemble experiences. Skip waiting on the development team queue.

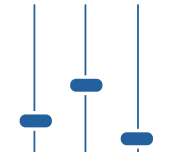

EXTENSIBLE

Use our toolkits and accelerators to rapidly develop integrations. Develop and deploy multiple projects in parallel with cloud-native SaaS platform.

Enhance your digital experiences with features like personalization and search. Connect data from any of your internal or third-party tools.

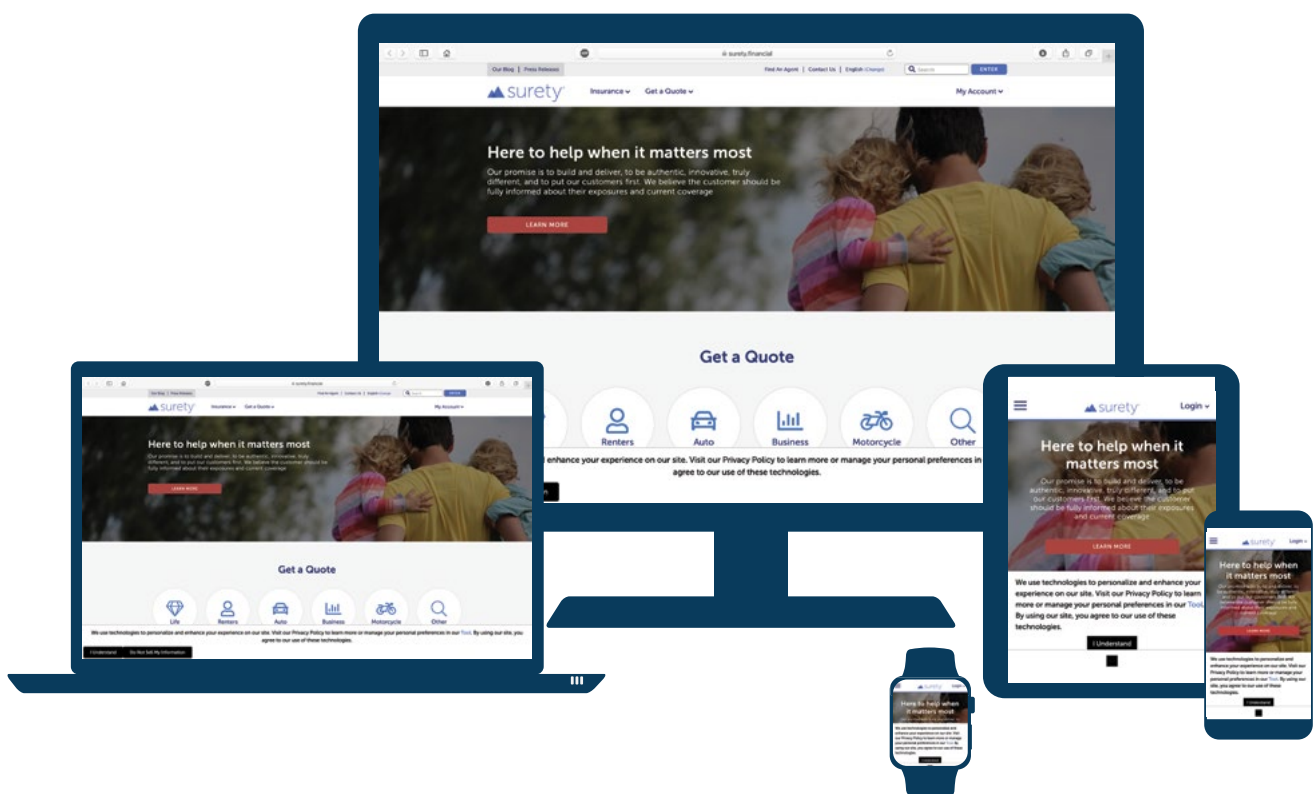

ENTERPRISE-READY

Scale up quickly to meet the demands of your business. Enjoy high availability with SLA-guaranteed 99.9% uptime. Rest easy with admin controls and the highest industry standards for security and compliance.

Take advantage of features to help you manage large global digital footprints like multi-site management, translations, and governance tools for brand, accessibility, privacy, and digital quality.

Explore how headless development with DXM can help your entire team build digital experiences faster. **Contact us for a demo today.**
